

## Little Hitlers

We're in the capitals and in your town  
And all we wanna do is boss you around  
We're making regulations for your lawn  
No tacky pink flamingos anymore

We're keeping faith in our democracy  
Our heads are empty but we're really free  
We get our wars and our welfare, too  
By joining gangs and voting with the crew

Sieg heil!

Little Hitlers  
They don't want to worry  
Have a lobotomy

Little Hitlers  
Can I be one?  
Tell me, Oh great leader of D.C.

Little Sheeple  
Sick people  
Goosestepping around the maypole tree

Little Hitlers  
Anyone can join  
If they eat the soilent green

Salute the emporer called uncle sam  
No need for thinking, he's the man with the plan  
Give up your money and your children, too  
To pay for lies in the government school

Little Hitlers  
They don't have no worries  
They got lobotomies

Little Hitlers  
Can I have one?  
Treat him like a stupid pet monkey

little Himmlers  
In brown shirts  
On cue we sing hail to the chief

Little Hitlers  
Big stoners  
Take another toke

Four score and many years ago  
Our fathers brought forth an empire

Conceived in socialism  
To spread the germ of democracy throughout the globe  
So that all may enjoy the blessings of a  
Planned economy and righteous thought control

We're on a mission, though its plain to see  
That life with government is total sleaze  
We live for jealousy and Schadenfreude  
Its been a pleasure to know ya

Little Hitlers  
They don't want to worry  
Have a lobotomy

Little Hitlers  
Can I be one?  
Tell me, Oh great leader of D.C.

Little lepers  
Goosesteppers  
Prancing all around the maypole tree

Little Fuhrers  
Dictators  
Stamping out all good a decent creeds
